LINA HOYOS

Electronic And Telecommunications Engineer

WHO AM I?

I am a student of Electronic Engineering and Telecommunications. I am passionate about web development, mobile development, and systems software architecture.

To acquire these skills I have been self-taught for the last four years, as I love researching, analyzing, and understanding architecture related to software development.

Currently, I belong to the IEEE student branch, WIE student branch, and I was part of the ISA student branch for two years.

I participated and organized the technological event TET-2019.

In a large part of university projects, I have handled the role of Scrum Master for which I handle the Scrum methodology, consequently teamwork.

EDUCATION

2012 – NOW
